Klasy VII – VIII szkoły podstawowe

Zadanie 1

Zdecyduj, czy podane zdania są prawdziwe (Right – R), fałszywe (Wrong – W), lub brak informacji w tekście (doesn't say – DS.) Następnie uzupełnij list Zosi do Kasi na podstawie tego tekstu. Uwaga!!! Wyrazy należy wpisać po polsku!

Part-Time... Paradise?

Are you a teenager looking for a way to make money, or just something helpful to do in your spare time? Are you definitely NOT interested in working as a waitress in a restaurant, or as a shop assistant – as many teenagers do? Well, if you go for one of these exciting part-time jobs, you might find the one that's right for you!

A. Video Game Tester: All Work AND All Play!

5 Is playing video games your favourite hobby? Then you might consider getting a part-time job testing video games. That's right; a video game tester gets paid to play! However, it's not all fun and games. Video game testers have to pay careful attention to detail and be willing to put a LOT of time and effort into testing every part of these games. They are responsible for finding glitches, or problems, in the games before they are available in shops.

Temporary and part-time positions are common in this exciting occupation,

13 so what are you waiting for? Go ahead and apply today!

B. Animal Shelter Volunteer: Caring for Cute Creatures!

Ever thought about what it might be like to volunteer? If you have pets or are an animal lover, then volunteering at an animal shelter is perfect for you. You can help by bathing, grooming, walking and playing with all kinds of our furry and not-so-furry friends – dogs, cats, hamsters and even snakes! Even though volunteering doesn't pay, the work experience gives you skills that are useful for the future. And the most rewarding part of all? Finding the animals a safe, new home.

C. Golf Caddy: Join the Club!

Do you like the great outdoors? Perhaps a part-time job as a golf caddy is just right for you! There is a lot more to the job than just carrying golfers' clubs for them. Caddies also have to know the names of the clubs so they can hand them over when the golfer asks for them. In addition, caddies clean the clubs, balls and tees and add up the golfer's score. This is a great job for teens because it gives them a chance to work in the fresh air and learn more about this interesting sport!

3D PRINTER

3-D printers are one of the latest trends in modern technology. However, you might be surprised to hear that they are much older than you think! 3-D printing was actually invented in the early 1980s by an engineer from the United States called Charles Hull. At the time he was working for a company that produced ultraviolet lamps. One day Hull talked to his boss about the idea of a 3-D printer, but as it wasn't useful for their business he wasn't interested. Despite this disappointment Charles never stopped working on his invention. He worked at the company during the day, and at night he focused on designing his 3-D printer!

The first model of Hull's 3-D printer was very large and heavy. It also cost hundreds of thousands of dollars! Because he was unable to travel with his invention, Charles made videos showing how it worked. At the time the car industry in America was at a disadvantage internationally and were impressed. They were quick to see the benefits of Charles' invention as it allowed them to make prototypes instantly, saving valuable time and money.

Production and development of 3-D printers grew, and the rest, as they say, is History!

1. 3-D printing is a totally new to modern technology. _____
2. 3-D printing was invented by an American engineer in the 20th century. _____
3. Charles was discouraged from working on his invention by his boss. _____
4. He kept on working on his invention day and night. _____
5. The first model cost \$100 000. _____
